ine to Arivaca, Oro Blance and Wash, ington Camp. The company mean business, and for that reason have carefully avoided all publicity in re-

gard to their intentions; but they will CAPITAL build the proposed road, all the same. In an interview with a Creizen representative, Col. Sykes said that B. M. JACOBS. he could not as yet give any deflaite information regarding the details of the proposed road, but assured him that the necessary cap- SAM FRANCISCO ... ital was enlisted, and that before very Los ANGELES Farm's & Merch'nts B'k. long actual work would be com- Curesso..... menced. The engineers are about to BALTIMORN. submit the result of the survey to the | Sr. Louis company, and as soon as possible Naw Year. thereafter the project was to be put

under way. He also stated that the distance from Tucson to Guaymas by the proposed route would be in the neighborhood of 200 miles. The above project is of the greatest importance to Tucson. It will secure | seted. permanently to our merchants the trade of all that wast and prospectively rich country lying to the south for a great distance, and will make our

city the commercial capital of all Arizons. With an outlet east and west by way of the Southern Pacific, and to the south via the Arizona Southern, it will bring to her boundaries the termini of all railroads likely to be built in Arizons. It is therefore the duty of our citizens to aid in every possible way the early fulfillment of the plans of Col. Sykes and his associates.

OUR OWN MINES.

Gro Blance as a Point for the Capitalist-A Model Mining Camp-The Placers at Ore Blance.

Tucson, October 8. EDITOR CITIZEN: It seems a sintrade of Sonora is a fallacy which our gular propensity in the nature of quick to reject.
